

Full Stack J2EE Developer

About Us

Xcira, a Tampa-based Software as a Service company with approximately fifty employees, is the premier technology supplier to the asset disposition (auction) industry. Xcira's unparalleled combination of innovation, enterprise-level systems and outstanding customer service are the cornerstones of this rapidly growing corporation and has provided the basis for Xcira to build long-term relationships with the undisputed leaders in the construction, fine art, wholesale automotive, automotive salvage, livestock, collectibles auction segments in North America as well world-wide.

We are currently looking for team players to develop and maintain enterprise solutions that drive the limits of performance. Our rapid growth has created tremendous opportunities for our employees. We're seeking a candidate to join our application development team. We have many opportunities to expand your skill set and learn new things.

The ideal candidate will thrive in a work environment that requires strong problem solving skills coupled with an aptitude for team collaboration and open communication during brainstorming sessions.

This is a full-time onsite employee position.

Successful candidates will have the following qualifications:

- Demonstrated ability to design and implement solutions in n-tier and cloud java environments
- Expert knowledge of java and j2ee
- Expert knowledge with Javascript frameworks such as Dojo
- Expert knowledge of HTML5/XHTML, CSS, XML
- Experience with messaging technologies such as ActiveMQ
- Demonstrated abilities and experience in Relational Database systems such as Postgres
- Experience with web messaging technologies such as CometD
- Experience in an agile (Scrum & Kanban) or DevOps environment
- Excellent verbal and written communication skills

Nice to Have

- Experience with developing real-time systems
- Experience with Apache Camel and Enterprise Integration Patterns
- Experience with IOS and Android development
- Familiarity with PHP, CouchBase/CouchDB, React
- Familiarity with working in a CI/CD development environment
- Familiarity with Atlassian suite (Bitbucket, Bamboo, Jira, Confluence)

Top Reasons To Work For Us

- Lots of room for growth with various technologies
- Exciting fast paced work environment
- Friendly people to work with

Xcira is highly committed to the training and development of and respect for our employees. We are a Drug-Free Workplace and offer a competitive salary package based on experience, a benefits package including a 401K Plan, and unlimited growth potential. Xcira offers a great working environment that is both highly professional, yet informal. We promote a relaxed, open-door atmosphere, along with entrepreneurial ideas and actions on the part of all employees. We currently do not offer any relocation. US Citizens and Green Card holders are encouraged to apply.

We are currently unable to sponsor H1B candidates or transfer a visa at this time.

Please submit **resume AND salary requirements** for immediate consideration.
